Taekwondo Competence Center

Brussels, 2013-06-14

Dear Mr. Kohlöffel,

I am proud to bring my “Patronage” to the “Taekwondo Competence Center Project” in Friedrichshafen.

As a politician and as a former sportsman I will always support any initiative that promotes sports especially among the young sportsmen and women. Sport provides a huge opportunity for mass contact and has a unique capacity to unite people, free of ethnic, religious or social differences.

I would like to officially declare my willingness to assume full patronage over this initiative and would like to participate in its realization with all my opportunities, as a person and as a politician.

I remain entirely at your disposal.

Sincerely yours,

Slavi Binev
